REACH Compliance Declaration

We hereby declare that products supplied by Eurocircuits are fully compliant with the related requirements of the European Union Regulation EC 1907/2006.

The Eurocircuits group, producer and supplier of printed Circuit Boards, declares that within the meaning of the REACH regulations, the company is a downstream user.

Provided that goods obtained from Eurocircuits are used for normal purposes and in normal circumstances we can state that we do not supply chemical products.

We declare that no products from the SVHC list (Candidate list of Substances of Very High Concern published in accordance with Article 59(10) of the REACH Regulation), nor mixtures of these products are present in the chemicals used at Eurocircuits.

As downstream user, Eurocircuits is not obliged to register under the REACH regulations.

However, we are aware that we share responsibility for REACH compliance. Accordingly, we have informed and continuously update our suppliers of the use we make of their products, so that they can include this knowledge in their chemical safety assessments (CSA).

We follow the risk management advice and the operational conditions of use described in the extended safety data sheet (eSDS) received from our suppliers, including the exposure to human or environment scenarios. And if relevant, forward the advice to actors further down the supply chain.
